1. An entirely new airfield is under construction in the town of Swidnica. A new road leading to the airfield has been built. Trucks are constantly transporting building materials to this site. Cement, bricks, and steel matting were some of the materials observed.
2. Construction here is reportedly being carried out by the Army Building Enterprise (PIW) (Przedsiębiorstwo Budowlane Wojskowe). The area near the construction site is restricted area.
3. Three planes are always stationed on the runways of the Krakow Airfield. When these three planes take off, they are immediately replaced by three others. These appear to be interceptor planes.
